

Why Doesn't This Texture Feel Right?

A Hands-On Workshop on Data-Driven Haptic Texture Reproduction and Typical Pitfalls

Date: July 6th

Location: Room C, Santa Maria della Scala, Siena, Italy

Time: 9 to 13

Join us for a hands-on workshop to experience a complete **record-to-render pipeline** in a single session! Learn more at our [website](#)

SENS3 Database

An open-source multisensory database of finger-surface interactions and corresponding sensations

What you will **learn** in this workshop:

- Record and render tactile textures
- Mitigate common pitfalls affecting quality of recorded and rendered signals
- Use SENS3 dataset for your research

Make SENS3

Experience the complete texture reproduction pipeline with a hands-on open-source hardware!
